ENTITY	geonames:1255364
WINDOW	16 Sept, 06:30–12:30 IST
SOURCE	S21 · Open-Meteo · GFS forecast delivery
RETRIEVED	15 Sept 2026, 05:59 IST
EVIDENCE ID	18d702f318f91da2...
TASK	t1

Record paths: \$.hourly.precipitation[26] \$.hourly.precipitation[27] \$.hourly.precipitation[28]
\$.hourly.precipitation[29] \$.hourly.precipitation[30] \$.hourly.precipitation[31]

S21 → retrieved 15 Sept 2026, 05:59 IST → preceding_hour_sum → claim t1-f1

A receipt for the moment it was retrieved, not a standing fact. Model output is not an observation and not a district average.

A collection is bounded by the source policy: retry timing, provider budgets and cooldowns all stay in force, and no background worker keeps running after this turn.
